9		Revision & Test	Revision & Test	
10		Revision & Test	Algebra	Algebra
11	Algebra			

Note: Order of topics taught within each term is at the teachers' discretion and may differ from what is shown here

## **Year 9**

### **Assessments**

There will be a common test near the end of each term which will assess material taught during that term.

### **Homework**

You should expect to do at least 20 minutes regular homework each night on top of the work you have done in class. If homework is not completed or is left at home you may be required to attend a homework catch up to complete the missed work.

### **Classes for 2018**

Students will be considered and placed in the class most appropriate for them. This will be based on results and performance during this year.
