9		Revision & Test	Revision & Test	
10	Revision & Test	Enlargement	Algebra	
11	Algebra			

Note: Order of topics taught within each term is at the teachers' discretion and may differ from what is shown here

Year 10

Assessments

There will be a common test at the end of Term 1, 2 and 3 which will assess material taught during the term. A 2 hour examination in Term 4 will test material from the whole year.

Calculators

Students must have a calculator for this course and it is recommended they purchase a graphics calculator. NZQA has stated that students with graphics calculators have a huge advantage in NCEA.

Homework

You should expect to do at least 20 minutes regular homework each night on top of the work you have done in class. If homework is not completed or is left at home you may be required to attend a homework catch up to complete the missed work.

Classes for 2018

Students will be considered and placed in the class most appropriate for them. This will be based on results and performance during this year.
